The international webinar on cultural studies concluded on a high note featuring one among the finest young intellectuals in contemporary cultural studies Dr Chandrima from Canada .Since her seminal essay has been prescribed for P G students in University of Kerala ,the webinar was crowded with 630 registered participants n almost 450 others watching it live on YouTube , apart from our students. Dr Chandrima's personal rapport with our HOD helped the webinar a sort of informal n personal warmth. Congratulations to Anne mam for the efforts you have put in to make it an exemplary event for the department n an added Laurel to the department .Kudos to Divya for the brilliant way she moderated the whole episode. And thanks to the principal, IQAC n the technical support team of IQAC for chipping in.
