

Educational Outcomes

Holistic development of the students has been the cornerstone of the ideas ingrained in the Vision and Mission of Bishop Moore College. The following outcomes are aimed at achieving the stated goals:

1. Core Competency Development

- To gain an in depth understanding of the core topics of study and an application level clarity of the same
- To develop a multidisciplinary perspective and thus contribute to the knowledge capital of the country in particular and the world in general
- To acquire global competency in the area of study and creatively contribute to the ever evolving chain of knowledge in the domain

2. Professional Skill Development

- To understand that learning is a lifelong, continuous and dynamic process that does not cease after graduating from College and has to continue at the professional and personal spaces as well
- To cultivate a heightened Emotional, Spiritual, Adversity and Creativity Quotient besides sharpening the Intelligence Quotient
- To enhance communication, soft skills and other employability skills

3. Environment Consciousness and Sustainability

- To cultivate a zest for developing a lifelong engagement with sustainable social development.
- To develop into proactive citizens sensitive to environmental issues
- To strike a fine balance between socially relevant and environmentally sustainable goals

4. Ingraining Gender Parity

- To strive for making gender parity a seamless part of the collective consciousness.
- To obliterate any possibilities of gender discrimination by resisting it in words and deeds.
- To work towards fostering a climate of gender inclusivity in the society.

5. Ethical Consciousness

- To develop a heightened ethical consciousness with a commitment towards communal harmony, steadfast to the cause of women and the marginalized.
- To involve in academics and research devoid of plagiarism ensuring a truthful publication of results.
- To juxtapose anthropocentric and bio centric ethical consciousness in praxis.
